CORE VALUE PROGRAM

ALWAYS GET TOP DOLLAR FOR YOUR INVENTORY

URG downloads current core prices from multiple core companies directly into your yard management system so your sales staff will be automatically prompted at the time of sale to charge the highest core price - maximizing profits.

- Integrates with: Checkmate, Powerlink 2, Pinnacle Pro, CRUSH
- Build a core box for all core companies, then electronically send the part details in each box directly to each company
- Use the report card on each core company to determine what to expect for your core loads and timing of payments
- Use the HotKey program from the MVR screen to quickly pull up cores being purchased on that vehicle
- Predismantle Core Report shows you which parts each core company is buying before you dismantle the vehicle. Print off a report for your dismantler
- Inventory Core Report allows you to see what parts in your inventory the core companies are currently buying so you can get top dollar
- Integrated with Inventory Buddy. For each part, select a core to go to a specific core company and electronically upload to the core load build screen

PARTNERS

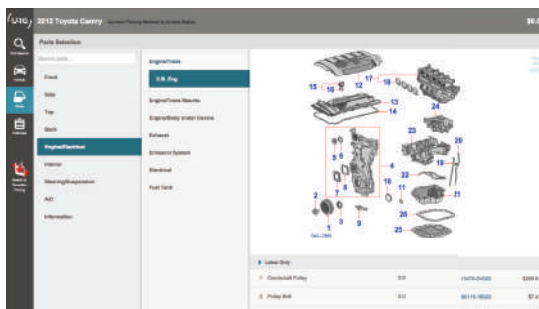

URG PARTSPRO

A ROBUST PARTS LOOK-UP TOOL AT A COMPETITIVE PRICE

Access Repairmate data with the click of a HotKey. Get the same reliable parts information as the Mitchell Collision Estimating Guide in an easy-to-use electronic format. This gives salesmen the ability to sell parts they normally would not because they do not have interchange or know what to charge.

The HotKey search integrates with Hollander, Checkmate, and Pinnacle Pro. Clickable part diagrams allow selection of individual parts, displaying part number and OE price to help your salespeople build assembly pricing.

URGNET CONTROL CENTER TAKE BACK CONTROL OF YOUR DATA

The use of 3rd party vendors and partners is vital to doing business online. But, data breaches caused by these companies are increasing daily and most businesses have no protections in place or even know if they have been compromised.

URGNet Control Center makes it easy to track, control and protect your confidential information:

- Select and authorize companies to share data and images with and know exactly what data is available to them
- Enact contracts to protect data and images from being sold or used in any way beyond the 3rd party's service
- Track data and image feeds to ensure proper upload and see the last date an upload was received
- Receive email updates if the data or image feed is out of date
- Save time transferring your 3rd party data extraction programs when a host computer is replaced

This program is available at no cost to all recyclers, both Members and non-Members alike, because URG is dedicated to protecting every recycler and their most valuable asset - their data.

59%

OF COMPANIES SAY THEY HAVE EXPERIENCED A DATA BREACH CAUSED BY ONE OF THEIR VENDORS OR THIRD PARTIES. LESS THAN HALF INDICATE THAT THEY HAVE SUFFICIENT RESOURCES TO MANAGE THIRD-PARTY RELATIONSHIPS

URGNET HOTKEY PROGRAM

Use the HotKey to view data from the URGNet database - including recyclers, core companies and reman/aftermarket companies - from any management system.

- Customize and view data and images from the URGNet database - including other Members, core companies, reman and aftermarket companies
- Easily access all member's data without having to pay extra
- Recyclers can utilize 8 different functionalities within HotKey
- Use the HotKey in any inventory management system to view information on the URGNet database
- Customize your data - select which yards, and in which order, you view them
- Search for vehicles in a Crush yard from your Pinnacle, Powerlink and Checkmate

RECALL HOTKEY

From the search results screen or vehicle record, use the Recall HotKey to show recalls for a particular VIN, and whether RAS is purchasing that VIN. You can also do a batch recall with VRSS. This is a free service for all recyclers.

The Vehicle Recall Search Service (VRSS) is provided by CARFAX, in partnership with the Alliance of Automobile Manufacturers and the Association of Global Automakers.

AUTO ALLIANCE
DRIVING INNOVATION®

Double the amount of your inventory shown in CCC. Show a broker yard's data as your own, even when you don't have a part. The new PartsTrader integration allows you to reduce manual data entry and view your inventory and your broking yard's inventory for each part. Additional features include delivery days and freight charge per part type.

Maximize the number of your parts going to the Collision Repair Industry. Inaccuracies in your parts data means those specific parts will be excluded from the data feed. This report shows you exactly what parts you need to fix and why.

BUSINESS TOOLS

PARTSTRADER AUTOMATCH & AUTOQUOTE

Automatically view inventory for each part and reduce manual data entry. This integration speeds up quote response time for sales staff considerably.

NMVTIS REPORTING

Automatically report your vehicles to NMVTIS, which runs automatically in the background, and take the hassle out of reporting salvage titles (Pinnacle Pro only).

URG ONLINE SALVAGE AUCTION

We've got you covered with a wide variety of vehicles from coast to coast - direct from the insurance company to the recycler. The pool of auction participants are limited to URG Members. Nominal registration fee and low, per-vehicle fee.

AUTO PART IMAGING

A picture is worth a thousand words! You will automatically sell more when you incorporate images. Upload your images to your own website, autopartsearch.com, and authorized 3rd-party companies.

MITCHELL 1 PRODEMAND

Quickly diagnose, estimate and handle warranty claims. The ProDemand HotKey integrates with Pinnacle Pro, Powerlink and Checkmate. Access labor times, component locations and technical service bulletins to save time and money. Both ProDemand Estimator and ProDemand Repair & Estimator are available.

AFTERMARKET / REMAN DATA

URG receives 3rd-party data from the companies below and uploads it into the URGNet Database for access via HotKey (automatically imported into Pinnacle).

WARRANTY CLAIMS PROGRAM

WE HANDLE THE CLAIMS - YOU FOCUS ON YOUR BUSINESS

URG and its Members have launched a trial program and will be accepting new participants when spots become available. This program is designed to save you time on processing claims AND provide efficiency and standardization to reduce warranty claim payments to customers.

With a full 1-year commitment, URG will provide:

- 800 number for customers to call
- ASE Certified staff to process your warranty claims
- Claims dashboard in URGSalesSupport for you to track claim progress
- Dedicated URG claims software
